

Automatic RF Techniques Group
91st ARFTG Microwave Measurement Conference
Philadelphia, PA

**Wideband Modulated Test Signals for
Network Analysis of Wireless Infrastructure
Building Blocks**

Sunday – June 10th Joint IMS/ARFTG Sponsored Workshop*

08:00-17:15 *Millimeter-wave systems; manufacturing, packaging and built-in self-test* Convention Center

Monday – June 11th Joint IMS/ARFTG Sponsored Workshop*

08:00-17:15 *Advanced applications of nonlinear vector network measurements for broadband RF power amplifiers design and linearization.* Convention Center

Thursday – June 14th Joint IMS/ARFTG Technical Sessions

08:00-09:40 *Advanced HF large signal measurement techniques* Convention Center Room 202AB

10:10-11:50 *Innovative mm-wave calibration and measurement techniques* Convention Center, Room 202AB

15:30-17:00 **NVNA Users' Forum** Loews Hotel, Regency A

17:00-18:30 **On-Wafer Users' Forum** Loews Hotel, Regency A

Friday – June 15th ARFTG Microwave Measurement Conference Loews Hotel

08:00-16:00 Exhibition Regency B

08:00-09:50 *Plenary session* Regency A

08:50-09:50 *Oral session "Characterization challenges of modulated signal metrics"* Regency A

09:50-10:40 Break and Interactive Forum Regency B

10:40-12:00 *Oral session "Large-signal measurement of wireless infrastructure building blocks"* Regency A

12:00-13:30 Awards luncheon Regency C

13:30-14:50 *Oral session "It's all about calibration and measurements for 5G"* Regency A

14:50-15:40 Break and Interactive Forum Regency B

15:40-17:00 *Oral Session "But don't miss mm-Waves and Beyond"* Regency A

*Workshops are **not** included with ARFTG registration
